

INTERNATIONAL ACADEMY OF  
MUSIC AND PERFORMING ARTS  
VIENNA

## Admission – vocal or instrumental studies in classical music

### Our philosophy for starting a professional music education

Dear applicant!

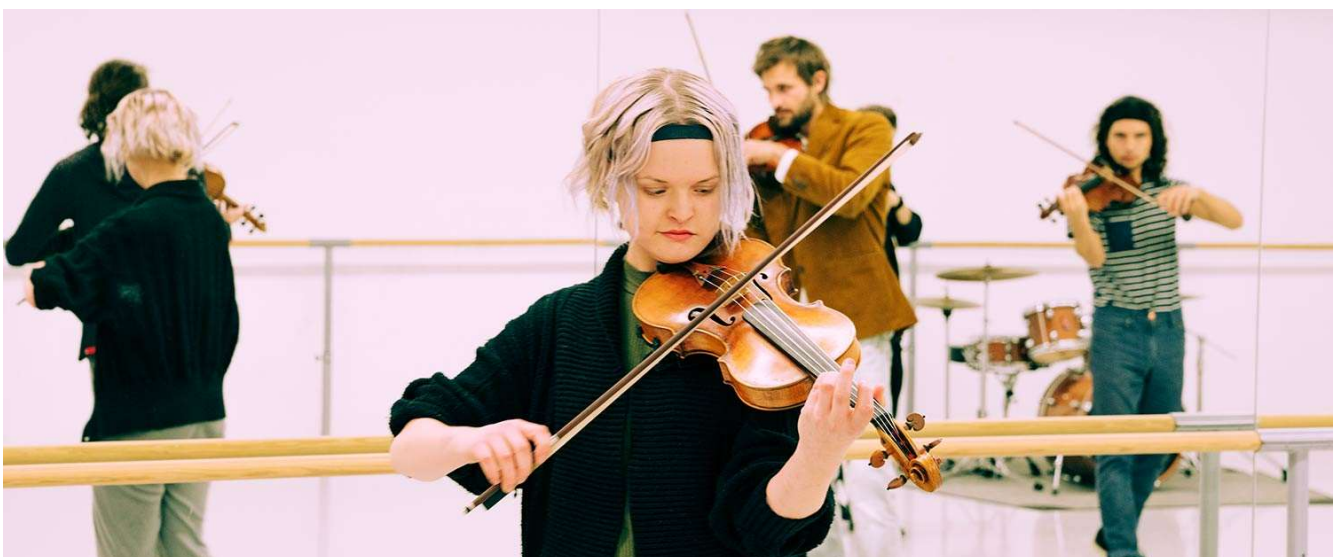

We are pleased about your interest in studying voice or instrumental studies at the International Academy of Music and Performing Arts Vienna and your application for the entrance examination.

During the entrance examination you will be able to present your musical talent and qualifications in various musical genres. We would like to get to know you as a person as comprehensively as possible at this audition. We are interested in identifying your individual and stylistic strengths that will enable you to pursue a professional career as a musician or music teacher.

Present us with pieces of music and musical styles that express your enthusiasm for music. We welcome diversity and variety and are open to inspiration from music of different cultures and genres.

In a personal conversation we would like to learn more about your motivation to pursue a professional career in music. Tell us about your musical and other relevant activities to date and your future goals. In this context, you are welcome to send us a letter of motivation and a curriculum vitae as part of your application.

Your musical and personal presentation will be followed by a written aptitude test on the basics of music theory. This test serves as a guide for us to classify you accordingly in central theoretical subjects such as aural training and general music theory.

# Steps of the admission procedure
