

INTERNATIONAL ACADEMY OF
MUSIC AND PERFORMING ARTS
VIENNA

Steps of the admission procedure

Due to the limited mobility provided by Covid-19, you can also apply for a study place via an online selection procedure until further notice.

Step 1

Your registration for the entrance examination is done electronically at <https://www.amp-vienna.com/de/academics/apply>. In addition to the required master data, please upload the following documents via the registration portal:

- Copy of a passport or identity card: absolutely necessary
- Copy of the confirmation of payment of the admission fee: absolutely necessary
- meaningful material about your previous musical work (audio/video material, scores, etc.): optional
- CV and letter of motivation: optional

Step 2 - Registration fee

Transfer the fee for the entrance examination of € 50 to the following account:

JAM MUSIC LAB GmbH, IBAN: AT19 1500 0002 0129 8049, BIC: OBKLAT2LXXX

After successful transfer of the fee, you will receive an appointment for the online admission test.

Step 3 - The online entrance examination

Covid-19's limited mobility allows you to transmit unedited video or live recordings with your musical presentation instead of personal audition.

The entrance examination is in 2 parts:

- I. Musical presentation (through transmitted video material)
- II. personal conversation (video conference)

The music theory placement test is taken at the beginning of the course.

The musical presentation included:

- video with 2 stylistically different vocal pieces (e.g. a ballad and an up-tempo song) with a maximum duration of 2'30" per song (shortened versions allowed).
- video with a monologue (maximum 3', shortened versions allowed).
- video with dance training for candidates with dance experience: record and send two short dances (1 minute each)
 - styles of the 1st dance either or mixed: ballet/modern/contemporary
 - styles of the 2nd video either or mixed: Jazz/Hip Hop/Videoclipdancing
- video with dance training for candidates who have no dance experience:
 - two short videos in the above-mentioned styles, on how you would move to this music

In terms of video and sound recording no professional video quality required (e.g. mobile phone recording is sufficient). the material must be recorded without interruptions and transmitted uncut or unedited. recordings of live concerts are desired, if available.

We kindly ask you to send the links to your videos via mail to office@amp-vienna.com. We recommend uploading your material on private YouTube Channels or similar platforms. If this is not possible for you, a link to upload the videos will be sent to you upon request. Sending via data transfer services like Wetransfer will not be accepted.

- As a student applying for the major subject Composition and Music Theory, you submit electronically: meaningful materials from your previous musical work (audio/video material, scores, etc.).

The personal conversation via video conference

In a personal conversation we would like to learn more about your motivations to pursue a professional career as a musician, music teacher or music producer. Depending on the field of study you are interested in, we ask you to focus your information on the respective field of study. During the videoconference, some artistic examinations in dance, acting and singing can also be conducted.

The aptitude test music theory / aural training will be made up for if you are planning to start your studies in Vienna.

We are pleased about your interest and are available for your questions at office@amp-vienna.com.
